NOVEL HALLOWE'EN  
EVENTS ARRANGED,  
PRIZES OFFERED

Grand Parade Of Mummies  
Will Be Main Feature  
Tuesday Night.

BICYCLE PARADE  
AND TUG OF WAR

Loving Cup Awaits Winner  
Of Struggle Between  
School Classes.

Prizes ranging from \$1 to \$6 in  
merchandise have been pledged by Sa-  
lem merchants to the committee of  
Charles H. Carey post No. 56, Ameri-  
can Legion, which is arranging the  
annual Mardi Gras for Halloween,  
Tuesday, Oct. 31, so that it will be  
worth while for every one to enter  
the numerous and novel events.

A silver loving cup will be present-  
ed by the Legionnaires to the winner  
of the tug-of-war between the Fresh-  
man and Sophomore classes of Salem  
High school, an event that promises  
to be a big feature of the Halloween  
festivities. This class competition  
has met with the approval of John S.  
Alan, superintendent of schools, and  
will mark the first attempt at regu-  
lated warfare between the traditional  
rivals.

A grand parade of mummies will,  
of course, be the main feature, and  
about forty prizes will be offered for  
the best costumes worn by the mas-  
queraders. A bicycle parade is plan-  
ned to develop additional merriment  
as the rider will be required to main-  
tain his place in the line of march  
at a uniform rate of speed that will  
call for unusual skill on the part of  
every cyclist. A prize will be award-  
ed to the best appearing rider and  
another for the most comical cyclist.

Three platforms will be erected at  
various points on Main st. and Broad-  
way which will be used as storm cen-  
ters for the mirth producers. There  
apple-bobbing and pie-eating contests  
will be held according to plans for-  
mulated Wednesday evening when the  
committee met in the chamber of com-  
merce rooms. Those present were  
Charles Haddi, R. L. Hutcheson, Rev.  
J. P. Harman, Alfred Jones, Orville  
Hoover and Ross Hoffman.

Funds for the Mardi Gras and for  
an Armistice day celebration are be-  
ing generously contributed by mer-  
chants and manufacturers, and the  
Legion members promise Salem and  
vicinity two events that will be re-  
membered.

COSTUMED TEAMS  
TO PULL ON ROPE

Hallowe'en Plans Discussed  
At Football Rally In  
High School.

Thursday morning at the High  
school assembly Rev. J. P. Harman  
announced plans for a tug-of-war be-  
tween Freshmen and Sophomores as  
a feature of the Halloween celebra-  
tion Tuesday night. There will be 20  
costumed students on each team.  
Much enthusiasm is being shown by  
the students who are already organiz-  
ing their teams.

The program included an enthusias-  
tic football rally under the direction  
of the two cheer leaders. All foot-  
ball players were seated on the stage  
and members of the faculty and stu-  
dent body spoke. More support from  
the side lines was the main theme.  
The team expects a stiff battle against  
East Palestine High Saturday after-  
noon at Reilly field and it wants a big  
crowd of rooters to help it along.

The birthday anniversary of Theo-  
dore Roosevelt was commemorated by  
a speech given by Florence Hoffmas-  
ter, who reviewed his life.

Hallowe'en Bigger  
Attraction Than  
Teachers' Meeting

Teachers of the Leetonia public  
schools will not go to Cleveland the  
latter part of this week to attend the  
Northeastern Ohio Teachers confer-  
ence, Supt. E. P. Stonebraker stated  
Thursday. Supt. Stonebraker claims  
that the majority of the Leetonia  
teachers prefer to remain at home so  
as not to miss the Halloween celebra-  
tion to be held in that town next Sat-  
urday.

"Our teachers, however, are plan-  
ning on a visiting day, to be observed  
some time about the middle of No-  
vember," Stonebraker continued.

"The teachers will divide, part of  
them going to Youngstown and the re-  
maining to the various other sur-  
rounding towns and cities, where  
they will investigate the methods  
and systems used in their efforts to  
improve the system carried out in  
Leetonia."

Memorial Building  
Plans Are Revived

Fund Of \$100,000 Given Three Years Ago By W. H. Mul-  
lins Is Available—Rotary Club Invites Representa-  
tives Of 30 Organizations To Hear Plans.

Within the next year, possibly in  
eight months, actual work of con-  
struction will be started on Salem's  
community building, as a World's  
war memorial, according to plans now  
being worked out by the advisory  
and building committees and others  
in charge.

More than three years ago a fund  
of \$100,000 was donated by W. H.  
Mullins for this purpose. He also  
provided funds for the purchase of  
a site on McKinley ave just west of  
the Public Library, and \$2,000 of that  
amount was left after the purchase.  
This money has been on interest and  
today it amounts to about \$115,000.

Guests of Rotary  
In order to arouse a community in-  
terest in the project and to seek the  
moral support of all organizations in  
the city, the Rotary club has invited  
representatives of all fraternal, civic  
and patriotic organizations to be its  
guests at a dinner at 6:30 p. m. Wed-  
nesday, Nov. 1, at the Elks club.

Invitations to these representatives  
have been mailed by Secretary R.  
W. Hawley, the invitations emphasizing  
the fact that while plans for this  
community building would be outlined,  
no financial pledge or obligation would  
be sought from the guests or the or-  
ganizations they represent.

Among the guests of the Rotary  
club on this occasion will be mem-  
bers of the advisory committee ap-  
pointed when Mr. Mullins turned  
over the fund to the community. This  
committee includes C. C. Gibson, H.  
W. Young, J. H. Brian, R. W. Camp-  
bell and G. R. Deming.

Trustees of Association  
The guest list also will include  
members of the board of trustees of  
the World's War Memorial Building  
association, an organization incor-  
porated Aug. 5, 1919, with 30 trustees.  
The board organized at that time  
with the following officers: President,  
L. P. Metzger; vice president, G. R.  
Deming; secretary, Miss Blanche  
Kyle; treasurer, W. B. Carey.

This is a corporation not for profit  
and under the bylaws the manage-  
ment is left largely to the executive  
committee consisting of five mem-  
bers and the president, namely, D.  
W. Davis, chairman; F. R. Pow, Dr. H.  
K. Yaggi, H. W. Young, J. C. Boone  
and L. P. Metzger.

These are the trustees of the as-  
sociation; F. R. Pow, H. A. Gager,  
Miss Judith Brooks, J. B. Schaeffer,  
J. C. Boone, Mrs. J. G. Woodruff, Dr.  
H. K. Yaggi, Karl Whinnery, Mrs.  
J. R. Carey, R. B. Thompson, T. J.  
Rossiter, Mrs. L. P. Metzger, Homer  
Silver, L. H. Brush, Miss Nellie  
Templeton, H. W. Young, Dr. Stanton  
Heck, G. R. Deming, R. W. Campbell,  
Mrs. C. L. Smith, P. J. Dean, Mr.  
W. L. Deming, Mrs. Stanton Heck,  
C. S. Carr, Mrs. F. G. Harris, Mrs. C.  
M. Carey, D. W. Davis, Charles Cav-  
anagh, W. B. Carey and L. P. Metz-  
ger.

Wants Public to Benefit  
Interest in the project has been  
revived at this time largely at the  
instigation of W. H. Mullins, the donor  
of the fund, who wants to see the  
building completed as soon as possible  
so the community may have the bene-  
fit of it.

In general, the plan is to have all  
community activities centered in  
this building, organizations using it  
for their headquarters, with an as-  
sembly hall, possibly motion pictures,  
athletic hall and other features to  
appeal to all organizations.

How such buildings are operated  
in other cities will be explained at  
the Rotary meeting by a speaker  
from the national organization in-  
terested in these undertakings.

Pastors and laymen from all nearby  
towns and churches attended a din-  
ner conference of the Salem district  
at the Methodist church Wednesday  
evening. At 7 p. m. 110 people were  
served and nearly 150 in all were  
present at the conference.

The church presented a beautiful  
appearance the tables being decora-  
ted with candles, leaves and Hal-  
lowe'en decorations.

Prayer was offered by Dr. W. R.  
Polhemus of Massillon and Rev. H.  
S. Powell of East Palestine. Rev. W.  
H. Stewart of Leetonia, Rev. J. D.  
Staley of New Waterford, Rev. Clare  
Davis of Washingtonville, Rev. A. G.  
Rupert of Columbiana, Rev. H. L.  
Peoples of Damascus and their dele-  
gates were introduced at the tables.

Songs were sung and after a  
hearty repast prepared by the Help-  
ing Hand class of the Salem church,  
Dr. Boyd L. George of Alliance, dis-  
trict superintendent, took charge of  
the program.

Dr. Ralph A. Ward, missionary to  
China, made the principal address of  
the evening and was followed by Ben-  
jamin Lu of Salem, and by E. Dow  
Bancroft of Urbana. The last speak-  
er presented the cause of benevo-  
lences of the church, and the urgent  
need of raising \$2,000,000 to bring  
the Centenary offering of the present  
year to the standard of preceding years.

This money is to be raised in cash, and  
telegraphed to the Chicago headquar-  
ters by Oct. 31, which is the close of  
the fiscal year, the pastor of each  
charge bringing his offering to a close  
before that time.

A similar meeting was held yester-  
day at Alliance, and the day before  
at Canton. Bishop Fisher today ad-  
dresses a large meeting at Akron. It  
is expected that the \$2,000,000 will be  
raised by October 31.

Million Persons With \$5,000  
Incomes Dodge Tax Payments

Washington, Oct. 26.—Government  
revenue agents and auditors, just now  
catching up with their after-the-war  
work, have made the startling discov-  
ery that more than 1,000,000 persons  
liable for taxes on incomes above \$5,  
000 have dodged payment either  
through not making returns or con-  
cealing assets.

This was learned at the treasury de-  
partment simultaneously with the in-  
vestigation of a drive on the part of  
the internal revenue bureau to catch  
up.

Revenue experts estimated that the  
treasury can be enriched to the ex-

tent of \$500,000,000 in collections  
from individuals who have failed to  
make any returns for four years.

In cataloging taxpayers, though-  
out the country, agents have found  
that the number of persons who  
should have made returns and did  
not will total nearly 1,000,000. In ad-  
dition, there is also shown in the  
reports a large class of revenue evad-  
ers who have put themselves in the \$5,  
000 class, whereas their earnings are  
considerably larger than that.

Experts have gone out to internal  
revenue collectors to make a round-

POLICE BELIEVE  
ARRESTS SOLVE  
MANY ROBBERIES

Salem Boy Implicated With  
Companions In Ten  
Burglaries.

PART OF LOOT HAS  
BEEN RECOVERED

Chief Thompson Works Up  
Case, Is Assisted By  
Alliance Chief.

With the arrest of five youths, Sa-  
lem and other towns within recent  
days have solved a series of  
burglaries in homes and stores in Sa-  
lem and other towns within recent  
weeks.

Two of four boys in jail at Alliance,  
charged with burglaries in which the  
loot is believed to amount to more  
than \$1,000, were returned from Mon-  
roe, Mich., late Wednesday afternoon  
by Police Chief Howard Morris of Al-  
liance.

Kenneth Crouch, 16, of Salem, and  
Robert Balfort, 18, of Sebring, were  
arrested in the Michigan town on in-  
formation obtained from a Sebring  
girl to whom the boys had given the  
address.

Police say these boys are responsi-  
ble for at least ten robberies in Sa-  
lem, Alliance, Sebring and Beloit.  
Much of the loot stolen from home-  
s and stores has been recovered.  
Paul Towns, 15, was arrested in Al-  
liance, Isaac Hawkins, 18, of Beloit,  
was arrested in that town.

A fifth youth, Frank McPhail, aged  
15, of Alliance, also is implicated. It  
is said he is being held in the Se-  
bring jail. He had been working in  
Sebring under the alias of Scott.

Solves Salem Robberies  
With the arrest of the five lads,  
Chief of Police T. W. Thompson be-  
lieves the robbery of 12 homes and  
business establishments in Salem,  
where money and jewelry amounting  
to approximately \$500 was secured,  
has been solved.

Several articles found in the pos-  
session of the lads have been iden-  
tified as belonging to Salem homes,  
including a revolver and knife from the  
home of Virgil Battin in Cleveland  
home of Mrs. Elizabeth Harman, 21  
Franklin ave.

A list of the homes and business  
establishments entered recently in  
which these lads are believed to have  
been implicated follows: Home of  
Mrs. Ellen Meyerhoefer, McKinley  
ave.; L. H. Brush, Lincoln ave.; Jess  
Johnson, South Lundy st.; Virgil Bat-  
tin, Cleveland ave.; Mrs. Elizabeth  
Harman, Franklin ave.; Chris Holk,  
Woodland ave.; Carr's Hardware, Flo-  
ring drug store, Economy clothing  
store, Campbell book store, all on  
Main st.; Schwartz dry goods store  
and Haroff's grocery, Broadway.

A diamond ring, valued at \$300  
taken from an Alliance home was re-  
covered by police while other small  
articles were also found following the  
arrest of McPhail.

Two Weeks Investigation  
The roundup of the gang followed  
nearly two weeks of investigation on  
the part of Chief Thompson of Sa-  
lem and the Alliance police.

Following a tip that some of the  
loot secured in the robbery of the  
home of Mrs. Harman was in the  
possession of McPhail, Chief Thomp-  
son enlisted the aid of the Alliance  
police in the case. McPhail, then liv-  
ing in Sebring was known under the  
name of Frank Scott.

With the arrest of McPhail, who is  
said to have admitted his part in the  
robbery of the Battin home after a  
severe grilling, Alliance police were  
in possession of the names of the  
rest of the gang. Hawkins and Towns  
were next taken into custody but  
search for Crouch and Balfort re-  
vealed that they had left Alliance.  
They were traced from there to Mon-  
roe, Mich., through letters said to  
have been written by a girl.

May Be Brought Here  
Chief of Police Howard Morris of  
Alliance, went to Monroe Monday  
morning and had little difficulty in  
locating Crouch and Balfort, who are  
said to have been the ringleaders of  
the gang. Chief Morris returned the  
pair to Alliance Wednesday after-  
noon. They will likely be brought to  
Salem to answer charges preferred  
against them by Chief Thompson.

Hawkins, Towns and McPhail are  
said to be implicated in the robbery  
of homes in Alliance and Sebring and  
the Stark Electric depot in Beloit.  
They are also believed to have taken  
part in several of the robberies in Sa-  
lem homes and stores.

Revolt Breaks Out  
In Western Thrace

London, Oct. 26.—Revolution has  
broken out in western Thrace, where  
the Bulgarian, Turkish and Greek  
populations have organized to obtain  
autonomy, said a Sofia dispatch to-  
day.

The revolutionaries are reported to  
have occupied Serres, fifty miles north  
of Salonika and 165 miles south  
of Adrianople. Jugo-Slav troops are  
guarding the Jugo-Slav frontiers.  
Western Thrace is under Greek rule.

Volvelgesano Will Head

Admiral Vogelgesang

Rear Admiral Carl T. Vogelgesang,  
formerly commandant at the Brooklyn  
navy yard, has been appointed head  
of the American Naval commission  
going to Brazil to aid in reorganizing  
its naval forces.

DUFFY AND YOUNG  
COMING HERE FOR  
DEMOCRATIC RALLY

Meeting Will Be Monday  
Night; Donahey Coming  
Wednesday Morning.

Thomas J. Duffy of Columbus, chair-  
man of the Ohio industrial commis-  
sion, and unsuccessful candidate for  
the Democratic nomination for gover-  
nor at the last primary election, will  
address a Democratic rally arranged  
for 7:45 p. m. Monday in the High  
school auditorium.

Appearing here with Duffy will be  
Stephen M. Young of Cleveland, ex-  
service man and Democratic candi-  
date for attorney general. Duffy, for-  
mer resident of East Liverpool, is  
widely known in Salem. He was  
formerly president of the National  
brotherhood of Operative Pottery,  
and has been active in labor circles  
throughout the state.

Quaker City band has been engaged  
to give a concert preceding the meet-  
ing.

Arrangements for this meeting and  
for another one at 10 a. m. Wednes-  
day, when A. V. Donahey, Democratic  
candidate for governor, will speak at  
an open air meeting at Broadway and  
Main st., were made Wednesday night  
by local Democratic leaders.

H. A. Gager was appointed chair-  
man of the Donahey meeting. Other  
plans for the coming election were  
considered by the Democrats, who  
met in the office of Atty. R. L. Schil-  
ler.

J. BENNETT YATES,  
AGED 84, IS DEAD

J. Bennett Yates, 84, died at 5:30  
a. m. Thursday of a nine weeks illness  
due to infirmities of age, at his home  
about one mile south of Salem.

A veteran of the Civil war, Mr.  
Yates was a member of Company K,  
104th regiment. He was affiliated  
with Treseott post, G. A. R. He was  
born Aug. 8, 1838, the son of William  
and Hannah Yates, at their home

1861, he was united in marriage with  
Miss Marian Heston of Newgardner.  
He had spent his entire life in this  
vicinity, a farmer by occupation. He was  
a charter member of Salem grange.

His widow, Mrs. Marian Yates, and  
two children, Mrs. Anna Stewart and  
J. W. Yates, both residents of this  
vicinity survive.

nounced Friday.

Organizations Must Abandon  
Work If Big Campaign Fails

Work of the Red Cross and other  
community undertakings will be forced  
to suspend operations unless the  
community campaign now under way  
is successful in raising the total bud-  
get of \$30,000, the executive commit-  
tee emphasized Thursday morning. All  
organizations included in the cam-  
paign are badly in need of funds and  
unless they are raised the work must  
cease.

While the reports of teams Wed-  
nesday evening showed less than a  
third of the goal reached, it is point-  
ed out that these reports came main-  
ly from residential districts. Factor-

THIRD OF GOAL  
IS REACHED IN  
5-FOLD DRIVE

Teams In Community Campaign Report Nearly \$9,000  
Raised On First Day—Mrs. Speidel's Team Leads—  
Final Reports To Be Made Friday Night.

Results of the first day's campaign-  
ing by the 100 workers, engaged in a  
drive for community funds which will  
provide for the maintenance of the  
five organizations in the Salem Wel-  
fare Federation, showed a total of  
\$8,770.49 pledged according to reports  
of the team captains given at the get-  
together luncheon Wednesday even-  
ing at the Elks club.

This is slightly less than one-third  
of the goal of \$30,000 set by the ex-  
ecutive committee in charge of the  
drive. In addition to this total, how-  
ever, there were approximately 250  
subscriptions to the Red Cross re-  
ported by the various workers.

Women's team No. 3, with Mrs.  
Frank Speidel reporting, led all teams  
with a total of \$996.50 in pledges and  
41 Red Cross subscriptions.

Men's team No. 1, captained by H.  
H. Sharp, led its division with a  
total of \$956 in pledges and 23 Red  
Cross memberships. The shop team,  
with Miss Inez Yengling reporting,  
showed a total of \$1,078.75 pledged.

A summary of the various divi-  
sions shows the women's teams with a  
total of \$3,180; the men's division  
with a total of \$4,511.74 and the shop  
team with \$1,078.75.

Stress Necessity For Funds  
Frederick P. Mullins, chairman of  
the campaign, presided at the meet-  
ing, while added impetus to the drive  
was given by several speakers in-  
cluding L. P. Metzger, chairman of  
the executive committee; Rev. F. S.  
Eastman, rector of the Church of Our  
Savior; Attorney H. L. McCarthy  
and Ray F. Carter of Community Ser-  
vice incorporated. Singing was led  
by E. V. Burt.

In his talk to the workers Chairman  
Metzger emphasized the necessity of  
raising not less than the goal of \$30,  
000 set by the committee, declaring  
that unless this amount was raised in  
the campaign, at least two and pos-  
sibly three of the organizations in  
the federation would cease to function  
as a result.

He explained that the quota set is  
the least that can be raised to cover  
the budgets set for each of the wel-  
fare organizations for the year, even  
after they were pared as closely as  
possible by the executive committee.

"The workers in this campaign are  
not begging for funds from anyone,"  
declared Rev. Mr. Eastman, "but we  
are simply making a report of the wel-  
fare work that is being done in the  
community." Activities of the var-  
ious organizations were cited by the  
speaker.

Final Report Friday Night

It was announced that after noon  
today the entire city and surrounding  
districts, with the exception of East  
Palestine, will be thrown open for the  
workers, either individually or in  
teams. Funds for the maintenance of  
the City hospital will be especially  
solicited in the surrounding towns as  
figures announced at the meeting  
showed that this year to date 281 pa-  
tients from the city of Salem were  
patients in the hospital against a total  
of 218 patients from the surround-  
ing towns. The quota of these towns  
has been set at \$5,000 or about 25  
per cent of the hospital's quota, while  
Salem residents are being asked to

More than \$4,000 in fines were im-  
posed by Mayor Ferren at East Pal-  
estine Wednesday on three persons  
brought before him on charges of  
violating the prohibition or Volstead  
act.

Mary Morgan of Madison township  
was fined \$1,000 and costs for pos-  
sessing liquor and after spending  
the light in the county jail she was  
taken to the Marysville reformatory  
for women.

Gov. Davis Attacks  
Donahey's Record

Somerset, Oct. 26.—Accusing the  
preceding Democratic administration  
of extravagance in connection with  
London prison farm project, citing  
that Vie Donahey, Democratic gub-  
ernatorial candidate, was in part at  
least responsible for the situation, Gov.  
Davis here this afternoon delivered  
his first address in the present Ohio  
campaign.

Low Prices Prevail  
At Big Cattle Sale

The sale of Holstein cattle, held at  
the Lisbon fair grounds Wednesday  
afternoon by members of the Hol-  
stein Cattle Breeders association, was  
well attended, but prices ruled  
low. A total of 52 head were sold,  
most of them fine specimens of the  
breed. Four cows brought \$200 each,  
which was the high figure. Walter  
Andrews of Beach City was auction-  
eer.

contribute the remaining 75 per cent.  
The campaign will continue today  
and Friday with final reports of the  
workers to be made at a luncheon at  
6 p. m. Friday at the Elks club. A  
meeting of all team captains has been  
called for 5:30 p. m. Thursday in the  
chamber of commerce.

Members of the committee have re-  
quested that any persons who have  
not been visited by the workers and  
who wish to contribute to the fund,  
make their donations to any member  
of the executive committee.

MENTOR TO SERVE  
WORKHOUSE TERM

Man Who Brought Girls To  
Salem Pleads Guilty,  
Is Sentenced.

Frank Mentor, of Beaver county,  
Pa., will leave the county jail at Las-  
bon in a few days for the Stark coun-  
ty workhouse, where he will spend  
30 days, or longer in the event that  
he fails to pay fine of \$60 and costs  
in the case against him.

Mentor several months ago came  
into this country from Pennsylvania,  
where he had a wife and child living  
and brought with him a young girl  
with whom he lived for several  
weeks in a tent which he pitched in  
a field near Salem, the authorities  
say.

Later a younger sister of the girl  
joined them and lived there for a

the Lisbon fair grounds Wednesday

### Northcliffe as a Boy.

When Northcliffe, Alfred Harmsworth by name, was a young boy the family lived at St. Johns Wood, next to a select seminary for girls of twelve to sixteen, and frequently the boys' ball would be knocked over the fence into the seminary garden, with ensuing reprobation from the principal. Once when the ball came over the fence into the garden, the story goes, a graceful, dark-eyed girl of thirteen took possession of it, and when Harmsworth clambered after it she refused to give it up. Later Alfred literally dropped in and by a combination of tact and blarney not only got the ball but got the girl's confidence and promise to return the ball whenever it again came over into the garden. Tradition has it that six years later she became Mrs. Alfred Harmsworth.—Kansas City Star.

**Boom in Leeches.**  
After many years of comparative neglect, the humble leech is again coming into its old popularity. But the old leech farms have long disappeared, and modern physicians who claim there are few better methods of relieving inflammatory areas than by the application of these blood-sucking creatures find difficulty in the supply. The "animated mustard plasters" are exported in baskets from Turkey, and Paris has one leech farm selling 130,000 a month, but it is said that chemists in England could easily dispose of double the number they are able to buy.—Scientific American.

### Court Rules That "Babies" Were Really Dolls

One of the wildest tales ever unfolded in an American court was told in Hammond, Ind., where Frank McNally, 55, charged his 26-year-old wife, Mrs. Hazel McNally, with the murder of their "twins." Mrs. McNally declared in rebuttal that he was so anxious to be a father he made her make her "nurse" two dolls. In this she was supported by Mrs. Gertrude Azzato, who said she was a childhood friend of Mrs. McNally and that she did the same trick when she was 16. However, Mrs. Floyd McNally, daughter-in-law of McNally, testified the "dolls" were really babies, as did Katherine Griffiths, daughter of the nurse who attended Mrs. McNally. The court, however, ruled the "babies" were dolls and freed her. She went immediately to a toy store and bought two more dolls, with which she is pictured here.

#### Real Power.

Every one turned to admire the tall man with the fine physique. His hair had a natural wave, his chin was cleft, his eyes were icy blue, he had a skin any woman might envy and he wore his clothes well.

No one noticed the small boy by his side. He was wizened and old, he looked like a withered apple, his eyes were small and shiny, his chin was weak, he was bald and sawn, and his clothes hung loosely about his thin form.

The small man had never done anything much except make about \$10,000,000, while the tall man was the traffic man who had just told him to come along to the station house for speeding.—Judge.

#### American Silks.

There are some interesting phases of the official statistics with reference to the manufacture of silk goods in the United States, particularly those that have to do with the early history of that industry.

It appears that the making of silk goods in our country has grown rapidly since the year 1890. At that time only 15 per cent of the silk used in the United States was home-made. In 1910 the percentage of home-manufactured silk had doubled; in 1920 it had become more than 50 per cent; in 1920, 70 per cent, while at present it is estimated to be in excess of 85 per cent.

Allenru has been tried and tested for years and really marvelous results have been accomplished in the most severe cases where the suffering and agony was intense and pitiable and where the patient was helpless.

Mr. James H. Allen, of Rochester, N. Y., the discoverer of Allenru, who for many years suffered the torments of acute rheumatism, desires all sufferers to know that he does not want a cent of anyone's money unless Allenru decisively conquers this worst of all diseases, and he has instructed druggists to guarantee it as above in every instance. #### He Had Help.

An alumna of Radcliff was helping in the recent drive to raise money for the Radcliff endowment fund by selling soap, says the Indianapolis News. She employed two small boys to take the soap to the houses of some of her friends. Little Johnnie, with the boxes under each arm, marched up to one door and knocked.

"Why are you selling the soap," inquired the lady of the house.

"To raise \$3,000,000 for Radcliff."

"Three million dollars! And are you trying to raise it all by yourself?"

"No," came the quick response.

"There's another little boy helping me."

## SOCIETY

### Classes in Mask Party

Miss Grace Fawcett, assisted by her brother, Russell, entertained a large number of guests at their home on the Ellsworth rd. Wednesday night at a masked party. The guests, numbering about 50, were members of the Mr. and Mrs. Harry Clay's and the McCurdy classes of the First Christian church.

The young people motored from the church to the Fawcett home and the first number on the program was a contest in guessing each other's identity, for which prizes were awarded the persons guessing the most names and the one identifying the fewest of the guests.

Following this contest the guests unmasked and went to the Arbaugh home on opposite side of the road which was especially arranged for Halloween games and pranks. The guests were taken on a trip through the vacant house, during which they came in contact with all sorts of frightful experiences, resulting in plenty of fun for all. The fortune teller was found secreted in abandoned house and games and stunts added merriment.

At 11:30 the guests returned to the Fawcett home where a splendid luncheon, appropriate to the season was served. Fancy baskets of candy corn were given as favors. Both the Fawcett home and the vacant Arbaugh house were made attractive with novel Halloween decorations and autumn foliage. Miss Frances Probert won the prize for eating the most apple suspended from the ceiling by a string.

Mrs. Oliphant, daughter of Dr. and Mrs. W. J. Blackburn, Newgarden rd., was graduated from the Friends Boarding school, Barnesville. For a time she was employed at the Hemminger store and is widely known in this vicinity. Mr. Oliphant is a son of Mr. and Mrs. William Oliphant, Winona.

# HUSBAND CHARGED WITH MURDER OF CLEVELAND WOMAN

Wife's Body Uncarried In Newly-made Grave In Painesville Woods.

## MAN MAINTAINS HIS INNOCENCE

Discovery Of Slipper And Blood-stained Hat Lead To Arrest.

Cleveland, Oct. 26.—Henry J. Burns, 44, operator of a popcorn stand at the West Side market, today stands formally charged with the murder of his wife, Mrs. Mary Burns, 29, whose body was uncarried in a newly-made grave in the "D. & O. woods," five miles northwest of Painesville, Lake county late yesterday.

Burns stoutly maintains his innocence, but will be taken by officers to the scene of the crime about 25 miles from here, for further examination today.

Lake county authorities today were seeking a woman in connection with the killing of Mrs. Burns. Cleveland police found some woman's trinkets in Burns' car this morning, and these are said to have belonged to some one other than his wife. This woman, who is handsome and young, left her home at Mentor shortly after her husband was found.

Burns, in a cell at Painesville, broke down and began to weep today. Body Found in Woods.

The body was found in a shallow grave after two Cleveland doctors, seeking chestnuts, had found a velvet hat discolored with blood and a black slipper in the woods. They immediately phoned the sheriff's office at Painesville and after a search a newly dug mound covered with leaves was found in a little clearing in the woods which at this season of the year is the mecca of nut hunters.

The arrest of the husband followed, tracing him by his automobile license. He had been in the woods where the body was found while the search for the corpse was being conducted, and one of the searchers noticed him there and called upon him to stop. He refused but as he climbed into the automobile his number was taken. When found last night at his market stand he was shown the blood-stained garments.

"Those belong to my wife," he replied steadily.

## Maintains Innocence.

Despite all attempts throughout the night to wring any admission of guilt from him he maintained his innocence.

"I know nothing of my wife's death. We were very happy," he told his questioners. "I drove out to our cottage at Mentor Tuesday night. My wife was not there, but I thought she was visiting friends, and thought nothing of it. Yesterday morning I decided to go nutting in the woods. I climbed a tree, and one of the branches broke, cutting my hand badly." Thus he accounted for the fact that one of his hands was bandaged.

The woman's head had been caved in by a blow with some sharp instrument. Her face was almost beaten out of any possibility of recognition, and was covered with deep scratches. Her body was only partly clad, but upon the left arm was a wrist watch, which had stopped at 13:02 and upon this slight clue authorities set the time of the crime as about that hour.

## England Is Without A Parliament Today

London, Oct. 26.—England is without a parliament today for the first time in four years and the bitter political struggle for control of the new parliament seemed to be converging into a double combat with both Tories and Liberals lined up together against the Laborite-Socialist element.

Premier Andrew Bonar Law was expected, in his speech in his home town of Glasgow this evening, to outline his new policies and to reply to the Liberal policies outlined by former Premier Lloyd George yesterday.

# WOMAN IDENTIFIES PASTOR'S SLAYER

New Brunswick, N. J., Oct. 26.—In a statement to the press today Mrs. James Gibson, self-proclaimed eyewitness of the murder of Rev. Dr. Edward W. Hall and his choir singer, Mrs. James Mills, declared that she has positively identified for the county authorities the man who did the shooting and the woman who accompanied him.

At the time of the shooting, Mrs. Gibson said, she did not know the man who did the shooting but later she identified him at the court house where she had been taken to make a statement. Mrs. Gibson said that she did not know her but that she, Mrs. Gibson, companion of the killer did know, knew the other woman, having seen her once before.

Mrs. Gibson also told of seeing three automobiles near the scene of the tragedy on the night of Sept. 14 and said that the headlights of one and flashlights carried by the slayer and his companion assisted her to see their faces.

## SPECIAL DELIVERY STAMPS BRING IN 7 MILLION DOLLARS

Washington, Oct. 26.—During the last year every man in the United States sent one special delivery letter and every other man received a reply, or, in the event the ladies are the greatest users of the stamp, every woman sent one letter and every other woman received one in reply according to figures just compiled at the postoffice department.

The general belief that these rush letters are associated with summer time, the "open season for spooners," was given a rude jolt by the figures which disclosed that more specials are sent in last quarter of the year than during any other period, indicating probably that the average citizen ignores the "mail early" plea and then spends ten cents to get his Christmas package rushed.

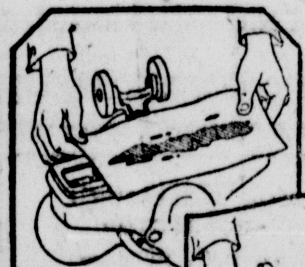

Reports from southern cities declare that the negro is the most extensive user of the rectangular stamp.

### Early Irish Monastery.

The site of one of the earliest Christian monasteries in Ireland has been found at Mahee island, Strangford Lough, near Belfast. The ruins have been identified as those of Nendrum monastery, mentioned in Milrecha's "Life of St. Patrick," written before 600 A. D.

Extensive excavations have been carried out and valuable material, including some stones with writing, the exact meaning of which has not yet been ascertained, have been unearthed. Some of the writings are believed to be of Danish origin.

## Hamilton-Beach Electric Sweepers

Amazing Proof! White dust on a thin piece of paper. Brush not running. Suction alone leaves dirt untouched.

But just start the brush, and it vibrates the dust loose; and the super-suction rushes it into the bag. See this demonstration. One of the 3 points.

### A REALLY GREAT CLEANER AND WHY

There are other cleaners that have a beating brush. There are other cleaners that have strong suction. But only the Hamilton-Beach has both.

Hence it unites in one machine all the cleaning advantages of both these good types, and besides gives double efficiency. It is so substantially constructed, that it is unqualifiedly guaranteed.

## A CLEAR COMPLEXION

Ruddy Cheeks—Sparkling Eyes—Most Women Can Have

Says Dr. Edwards, a Well-Known Ohio Physician

Dr. F. M. Edwards for 17 years treated scores of women for liver and bowel ailments. During these years he gave to his patients a prescription made of a few well-known vegetable ingredients mixed with olive oil, naming them Dr. Edwards' Olive Tablets. You will know them by their olive color.

These tablets are wonder-workers on the liver and bowels, which cause a normal action, carrying off the waste and poisonous matter in one's system.

If you have a pale face, yellow look, dull eyes, pimples, coated tongue, headaches, a listless, no-good feeling, all out of sorts, inactive bowels, you take one of Dr. Edwards' Olive Tablets nightly for a time and note the pleasing results.

Thousands of women and men take Dr. Edwards' Olive Tablets—the successful substitute for calomel—now and then just to keep them fit. 15c and 30c.

## IF KIDNEYS ACHE FLUSH WITH SALTS

Kidney and bladder irritations often result from acid, says a noted authority. The kidneys filter this acid from the blood and pass it on to the bladder, where it may remain to irritate and inflame, causing a burning, scalding sensation, or setting up an irritation at the neck of the bladder, obliging you to seek relief two or three times during the night. The sufferer is in constant dread; the water passes sometimes with a scalding sensation and is very profuse; again, there is difficulty in voiding it. Bladder weakness most folks call it, because they can't control urination. While it is extremely annoying and sometimes very painful, this is often one of the most simple ailments of Jads Salts from your pharmacist to overcome. Get about four ounces and take a tablespoonful in a glass of water before breakfast; continue this for two or three days. This will help neutralize the acids in the urine so it no longer is a source of irritation to the bladder and urinary organs, which then act normal again. Jads Salts is inexpensive, harmless and is made from the acid of grapes and lemon juice, combined with lithia, and is used by thousands of folks who are subject to urinary disorders caused by uric acid irritation. Jads Salts is splendid for kidneys and causes no bad effects whatever. Here you have a pleasant, effervescent lithia water drink, which often quickly relieves bladder irritation.

The evaders have hidden in the majority of cases behind faulty accounting methods, and in a surprisingly large number of cases it was shown by the preliminary investigation, ledgers were not used at all.

## SUSPECT ADMITS THIRTY ROBBERIES

### Police Believe Arrest In Youngstown Solves Many Cases.

Youngstown, Oct. 26.—In the arrest of Joseph Bernard, Youngstown, police believe they have solved many robberies here and in other cities in which several victims have been shot.

According to police, Bernard is a whiskey runner and has confessed participation in many crimes including the "sticking up" last Saturday in On City, Pa., of a jewelry store in which a clerk was shot.

The arrest was brought about through identification by auto license of the owner of the bandit car. The machine was traced to Pittsburgh where it was found that Bernard had left with a load of liquor for Canton. Canton detectives visited Youngstown but were told that Bernard was not at home.

At 1:30 a. m. today Bernard was caught on Market st. while tampering with an auto the owner of which notified the police. After severe grilling he is said to have confessed to 30 robberies.

## ABOUT FRAN

By MOLLIE MATHER

The village street bled in the sun. Phyllis sighed impatiently, as she looked up at her husband.

"I just can't stand it," she said. "I wish that you had not accepted the call to teach in this desolate spot. The discouraging thing for me is that you have learned to love your school, Bob."

Bob Edmunds leaned forward eagerly. "Yet, before we were married you agreed that it would be best to grow with a place, Phyl. My opportunity is here in Bolivar. As the place grows we shall be successful and happy."

Phyllis touched his hand placatingly. "Poor old Bobs," she said. "I am a disappointment. If I only had one pleasing woman companion with whom to 'invite my soul,' I'd try to be resigned."

"I suggested Fran—" Bob began. His wife interrupted. "Will you never be content until your favorite sister is one of our household?"

"At present, I am thinking of you, Phyl," he patiently replied. "Fran is such a merry company. Why, she'd find pleasure for herself and make happiness for others too in a barren desert. She has sympathy and understanding."

"Enough," laughed Phyllis. "Fran's sympathy and propensity for making others happy has often led to disaster. You know that she has willfully stirred all her life. My own brother was one victim. And I believe he has not yet recovered from his attachment. And does Fran care? Not a bit. Out for new worlds to conquer."

"You wrong my sister, always," Bob Edmunds objected. "It is her very lack of conceit which makes her blind to men's admiration."

Phyllis considered. "Of course," she admitted. "I like Fran."

"David," Phyllis went on, "is quite the best man I have ever known. Not hating you, Bob."

Up the garden path toward them came a young woman. Breathlessly she deposited a traveling bag on the porch steps.

"Welcome me, brother and sister," remarked Fran the invincible. "I have arrived."

They questioned, even as they obediently welcomed. "How ever did you happen to come—this long distance and unexpected?"

"I returned Fran calmly, 'am always unexpected.' She smiled. Immediately she was at home."

David came as was his custom, just as the stars were showing and Phyllis had finished her supper work. Then the three could sit on the little porch—Phyllis, her husband, and his friend. David was very silent on this particular evening, when Phyllis presented a rosy fresh and smiling sister-in-law. Fran, as usual, was quite at ease.

"How nice," she remarked, "to have you here to make a party of four." They did frequently make a party of four. At least, that is how it began. After, the party decreased to two.

"David is falling in love," wailed Phyllis. "I know the symptoms."

Fran came into the room. Perplexed she regarded each troubled face. "Has the school principal been removed?" she questioned, "or has Phyl's teacake fallen?"

"Fran," Phyllis asked, "are you playing with David, or are you in love with him? We want to know."

Fran sank into the wicker chair. "Since you put it thus frankly," she returned with her engaging smile, "I am in love with David."

Phyllis was hugging her while Bob wrung her hand.

"And you will stay with us forever," rejoiced Phyllis. From their embrace Fran wriggled and a diamond ring dropped to the floor. Phyllis picked it up. Blushing, Fran slipped the ring to the engagement finger.

"Now, that the cat—or rather the ring—is out of the bag, I may as well wear it," she remarked.

Phyllis stared. "How long have you had the ring, Fran?"

"Oh," she stammered, "I—I've had it about a year. You see, I've been engaged for a year. But I could not make up my mind to marry."

"Do you mean to tell us," her sister-in-law accused, "that all the time you have allowed David Bronson to take you around, that all the time you have acted as though you cared for him, you have been engaged, debating as to whether you would marry the man who gave you that ring, or whether—"

"I shall marry the man who gave me the ring," Fran announced with sudden decision.

"What," said Bob sternly, "am I to tell David my friend?"

That young man entering the room of distress, Fran signaled him. The signal was given with the flashing ring.

"David," she replied, "will, perhaps, tell you."

Fran would not allow me to announce our engagement before," David explained with a smile. "She wanted to be doubly sure of the state of her heart. We came to know each other the summer she spent with her aunt in a town I was trying out for practice. It was at Fran's suggestion that I sent for you to come here, Bob. Fran thought that she would like to keep you and Phyl as neighbors."

"Don't hug me again," cried Fran to her repentant relatives. "David can do that."

Struck By Auto  
Aged Columbiana  
County Man Dies

Sunderson Ketchum, aged 73, died Tuesday at the home of his niece, Mrs. Olive Buckley, Wayne township, of injuries sustained last Saturday when he was struck and knocked down by an automobile in East Liverpool.

The aged man was about to board a Y. & O. car near Fisher's grocery, when an automobile ran over him. He was picked up and was able to continue his journey home. It was found that he had sustained internal injuries and three broken ribs. On Sunday his condition became serious. Deceased was born in Madison township, near where his death occurred, and his entire life was spent in that locality. His wife died about 12 years ago and he has since made his home with his children and niece. He is survived by three sons and two daughters: Dr. W. H. Ketchum and C. K. Ketchum of California; E. N. Ketchum of Milwaukee, Wis.; Mrs. Georgia Hague, of Wayne township, and Mrs. John Miller of Lisbon, who is now in a sanitarium in Gales, Cal. He is also survived by one brother and sister, Joe Ketchum of Lisbon, and Mrs. Nan Welsh of East Palestine. He was a member for many years of West Beaver church. Funeral services have not been arranged.

**Beggars' Trade Union.**  
A new terror has been added to continental traveling. A recent report from Constantinople states that the beggars of Stamboul have formed themselves into a trade union, says London Answers.

The members go to work quite methodically. Each morning they hold a meeting in the open space in front of the Bayazid Mosque—they cannot afford other offices, although some of the members are said to be rich—and here they discuss the business of the day. Then after the agenda has been read and approved, the brothers in beggary disperse, and set about the business of collecting alms.

Just as other trade unions forbid their members to work for less than certain prescribed wages, so the beggars are not allowed to beg for any sum less than one hundred paras. Any smaller gift is spurned as detrimental to their dignity.

Kansas City—Miss Marion Talley, 15, has such a remarkable voice that the city council has passed an ordinance that she must not overtax her voice and the citizens have given a benefit concert in a large auditorium in that manner securing a good sized fund to be used in training Miss Talley.

Ohio Leads Against  
Mongrel Livestock

Ohio is doing more than any other state in the union to rid its farms of mongrel livestock. The United States Department of Agriculture makes this announcement from its central offices at Washington, in the

latest quarterly report on a national Better Sires—Better Stock campaign that it instituted three years ago. The previous report, made in July, showed Ohio, Virginia and Nebraska contending for first position in the order named. These three states maintain the same position on the top. The present report shows that 2,128 Ohio farmers have enrolled their farms as "scrub-free" and have promised that in the future nothing but pure bred animals will be found within their fences. Virginia has 1,922 farms enrolled; Nebraska has 1,305. There are 79,110 head of purebred horses, cattle, sheep and swine on Ohio's 2,129 listed farms. Aside from Kentucky, which hung

up 246 new enrollments and advanced to fourth place during the quarter just closed, Ohio with 153 new enrollments was the state of greatest activity in the campaign.

# DONAHEY USING DELIBERATE LIE ON TAXING ISSUE SAYS THOMPSON

Newark, Ohio.—(Special.)—Figures presented by Col. Thompson in his speech here tonight he said completely refuted Donahey's allegations in his campaign tax talk charging the present Republican administration in Ohio had increased the state levy from 45 to 47 1/2 mills. The Republican candidate for governor flatly charges Donahey with making statements regarding the tax rate "which are absolutely untrue" and which Col. Thompson avers are made by Donahey in attempt "deliberately and purposefully to deceive the people of Ohio" on a vital issue in this campaign.

Col. Thompson quoted Donahey's own report as state auditor to show two substantial increases in the state levy were made during Cox administrations.

Col. Thompson quoted Donahey's own report to show two substantial tax increases the Democratic candidate charges to the Davis administration were made during Cox administrations, before Davis took office.

He also quoted the report to prove the state tax rate was 3.31 mills when the Democrats left office, and not 45 mills, as Donahey states, was the rate when Davis became governor.

Col. Thompson said in part: "The Democratic candidate for governor, in a public address at Celina last Saturday night, made the statement that 'when the present Republican administration began under Governor Davis in January, 1921, the tax levy was 45/100 of one mill and that since that time the present Republican administration has increased the state tax levy from 45/100 of one mill to 47 1/2/1000 mills.' And I am informed that Mr. Donahey has, during the last week, been making this statement in his public speeches throughout the rural counties of the state with the hope that if he can induce the farmers, and particularly the farmers, to accept this statement as true, it will secure his election as Governor."

"But unfortunately for Mr. Donahey, this declaration that he has broadcasted over the State of Ohio that the present Republican administration has, since January 1st, 1921, raised the state tax levy from 45/100 of one mill to 47 1/2/1000 mills, has no foundation in fact and is absolutely untrue. And because Mr. Donahey's alleged knowledge of tax matters gained by his experience as State Auditor, you and I have to believe that he has deliberately and purposefully sought to deceive the people of Ohio upon the one question which is probably more vital than any other in this campaign."

"It is true that the total state tax levy at one time was 45/100 of one mill, but Mr. Donahey has attempted to deceive you as to the date. Instead of being upon the first of January, 1921, when the present Republican administration began, it was at the close of the fiscal year of June 30, 1919, or 18 months before the present administration began."

"Mr. Donahey retired from the State Auditor's office in January, 1921, and the records in his office disclose that for the year 1918 the total state tax levy was 45/100 of one mill and that in the year 1919, under Democratic administration and while Mr. Cox was Governor, the State tax levy was increased from 45/100 of one mill to 65/100 of one mill and that during the year 1920, still under Democratic administration and with Mr. Cox still Governor, the State tax levy was again increased 2 1/2/100 mills, so instead of the State tax levy being 45/100 of one mill when the present Republican administration began in January, 1921, the records in the Auditor of State's office show that the total state tax levy to have been 3 30/100 mills, no one knew this better than does Mr. Donahey, and I here and now publicly challenge him to deny this statement."

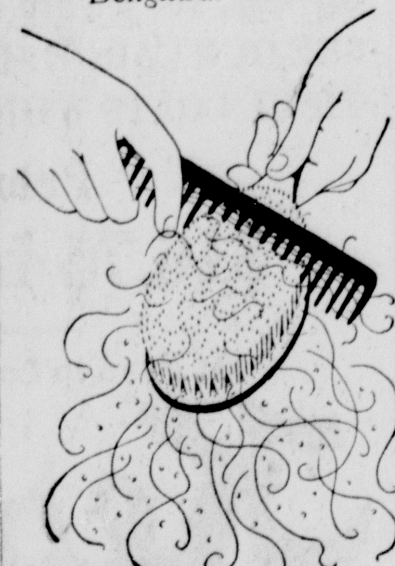

"During the present Republican administration there have been three, not only three, items added to the state tax levy, and all three of these became necessary by and arose out of the exigencies of the war. The first item was the addition of 1/2 of one mill to provide for the interest and sinking fund on the soldiers' adjusted compensation bonds; and this 1/2 mill was not levied by the legislature but was submitted to and approved by the voters of the State of Ohio. The second item was a levy of 1/8 of a mill to provide additional buildings for our universities and colleges and the third item was a levy of 2/8 of a mill for the construction of new buildings at our various state institutions. These two levies were essential in order to renew the building program which was abandoned during the war period."

"In other words, the increase in the state tax levy, of which Mr. Donahey complains, during the present Republican administration, consists, first of 1/2 a mill levy voted by the people to compensate our soldiers who fought in the world war—and I want to ask Mr. Donahey now whether he disapproves of that levy; second, of 1/8 of a mill was to increase the facilities for the education of our youth in our colleges and universities—and I again ask Mr. Donahey to say to the people of Ohio whether he disapproves this levy; and third, of 2/8 of a mill to be used for the better care, comfort and protection of the unfortunate ward of the state—and I am sure the voter of Ohio would like to know, before they vote on November 7th, whether or not Mr. Donahey would have vetoed that levy had he been Governor."

# HAIR DON'T STOP FALLING ITSELF

35c "Danderine" Saves Your Hair—Ends Dandruff! Delightful Tonic

Don't lose another hair! Don't tolerate destructive dandruff. A little Danderine now will save your hair; thicken and strengthen it; double its beauty.

Falling hair never stops by itself! Dandruff multiplies until it forms a crusty scale, destroying the hair, roots and all, resulting in baldness. Your druggist will tell you that "Danderine" is the largest selling hair saver in the world because it corrects and tones sick, ailing hair of men and women every time. Use one bottle of Danderine, then if you find a single falling hair or a particle of dandruff, you can have your money back.

Crowding insects. Man, calling himself the master of nature, may yet be involved in a life-and-death struggle with insects for possession of the globe—and in some ways scientists declare insects are better fitted than men for survival on earth. Baked beans at a dollar a portion! Is the plebeian bean to be driven from its present democratic company into the ranks of the aristocracy? This possibility is suggested by the recent invasion of the southern portion of the United States by the Mexican bean beetle, a handi pest of the first magnitude that now has gained a firm foothold and is already at work in a limited territory, undermining natural resources with such telling effect that the final outcome is a matter of grave concern. Beasts of all kinds are being attacked by this handi—a kind of ladybug—and entire crops are being wiped out.

World's Largest Boiler. A boiler capable of heating 1,000 eight-room houses has just been placed in operation in Detroit. It measures 19 by 26 feet inside, and the height from the grate bars to the top of the pipe coils is 35 feet. It can turn 100,000 pounds of water into steam in a single hour, requiring 12 tons of coal to accomplish this feat.

Sinking. The Knight block at the corner of Fifth and Ohio ave here has been found to be sinking, a depression of five inches having been located in the center of the building. Repairs are being made and the blame placed upon the architect.

New Attraction. A man who had been engaged to write a circus poster suddenly found himself at a loss for a fresh adjective. "See here," he said to his employer, "I don't know what to say about this panther. Have you a thesaurus?" The manager of the circus looked at him with suspicion. "No, sir, I have not," he said, "and I don't think I shall do anything about getting one this year. I never heard of a circus having one, either, and I've known some good shows. In Pitiable Condition when she Began Taking Lydia E. Pinkham's Vegetable Compound

Sabina, Ohio.—"I took Lydia E. Pinkham's Vegetable Compound for weakness and irregularity. I was weak and nervous and could hardly stand on my feet long enough to cook a meal. I was this way for about a year and had tried several medicines, but to no avail. My sister was taking your medicine and finally induced me to try it. I now feel fine and can do my housework without any trouble at all. You can use this letter for the sake of others if you wish."—Mrs. WELDON G. HATFIELD, R. L. 3, Sabina, Ohio.

Housewives make a great mistake in allowing themselves to become so weak and nervous that it is well-nigh impossible for them to attend to their necessary household duties.

Lydia E. Pinkham's Vegetable Compound should be taken when you first notice such symptoms as nervousness, backache, weakness and irregularity. It will help you and prevent more serious trouble. Give it a fair trial. It surely helped Mrs. Hatfield, just as it has many, many other women.

# DEMANDS LOWER FREIGHT RATES

FARM BLOC SERVES NOTICE OF PLAN FOR MODIFICATION OF TRANSPORTATION ACT.

WANTS GUARANTEE REMOVED

Senator Capper Says Objectionable Features of Law Must Be Repealed If American Farmers Are to Be Saved From Ruin.

By JAMES P. HORNADAY

Washington.—The farm bloc in public life under the leadership of Senator Arthur Capper (Rep., Kans.) is serving notice on all interested persons that unless there is another sharp reduction in railroad freight rates the bloc will seek to make over the transportation act of February, 1920, at the next session of the congress whether that session shall begin in November or December. The Kansas senator in serving this notice says he greatly regrets that the senate did not at the last session act on his bill repealing section 15-A of the transportation act—the rate-making clause.

"This bill if passed would have given state railroad commissions more control over rates," says Senator Capper. "It would have terminated the excessive charges by removing the so-called guarantee in the Esch-Cummins law and so have made possible the return of good times and a genuine revival of business in the only way in which they can come to stay."

"The farm bloc at the next session," says the senator in conclusion, "will urge the passage of this bill, or a similar measure, repealing the objectionable provisions of the Esch-Cummins act. Sooner or later this must be done. Far better to do it sooner and bring to an end the ruinous endurance contest which has brought our greatest prosperity maker, the farm, to the verge of ruin."

There seems to be small prospect of the railroads' voluntarily making any further reduction in freight rates in the near future, or of the interstate commerce commission's ordering the reduction, and so it would appear that when the congress reconvenes the proposed repeal of the rate-making section of the transportation act will be a real issue.

It Already Is an Issue.

Indeed, it is very much of an issue in a good many congressional districts at the present time and in some senatorial contests. The farm bloc, which by no means confines its activities to the congress, is seeking to put a large number of candidates for the congress on record in regard to freight rates and the proposed repeal of the rate-making section of the railroad act of 1920.

The farmers in some sections of the country, it is asserted, have the cordial support of manufacturing industries in their demand for lower freight rates. From all accounts, transportation rates and rates of taxation are the topics the farmers and the business men of the country are most interested in at the present time. This being the case, men who are seeking seats in congress are being compelled to discuss these subjects, it is asserted, whether they prefer to do it or not. In his appeal to the farm bloc in congress and out Senator Capper says railroad officials estimate that for the last five months of the present calendar year the class 1 railroads will earn net operating incomes of \$480,000,000. This, he says, will make a total of \$900,000,000 for the year compared with earnings of \$615,000,000 for the calendar year 1921. These total earnings equal 5 per cent on \$18,000,000,000, the total property value of the railroads in the United States.

Big Crops May Be a Liability.

The senator then makes this application of his figures:

"Compare this with the reported loss this season of more than half of this country's great fruit crop because it cost the growers more money to ship their fruit than to let it rot. Now it is the grain belt's turn to suffer. The stockmen will come next. Unless we have lower freight rates speedily our big crop from which we have hoped so much, will become more of a liability than an asset. Much lower prices this harvest, three years of losses, and the higher-than-war rail rates are consuming our farmers. They have reached their last ditch. They can endure no more."

The senator says that "if we are to save the situation—and this is no special plea since it vitally concerns the general welfare—let me say most solemnly and earnestly that the railroads must voluntarily and at once make further rate reductions; or, in default of such action that the interstate commerce commission must with utmost promptness put such rates into effect."

The guarantee embodied in section 15-A of the Esch-Cummins act is of course a restraining influence on the interstate commerce commission, indeed a bar to a reduction of rates beyond a certain point, and so it seems entirely probable that so long as this guarantee stands the commission need not be looked to for further immediate relief. A movement to strike out of the Esch-Cummins act the provision establishing the railroad labor board is also under way.

Recent scientific tests have failed to show that electricity makes seeds sprout faster.

# Health Commission's Work Shows Results In Schools

By M. K. ZIMMERMAN

Lisbon, Oct. 26.—The very close attention being given children who attend the rural schools of this county has worked for the good of all communities. It has been an uphill fight in some respects, yet a great work has been accomplished.

Assistant county superintendents have been working hand in glove with the county health commissioner, Dr. McCullough, and it is admitted the latter has done much to put the rural schools on a higher plane than ever before.

For instance, ordering children out of school to return to their home and take a bath may seem to the uninitiated a very little thing, but just such orders as these are being issued with more or less frequency. Dirt is a breeder of disease, hence the health of other children is to be taken into consideration.

Assistant county school superintendents with the county health commissioner and the county nurse visit homes when occasion demands, and the errors of parents in rearing their children are pointed out. When changes have been ordered, the health of the child has been improved, they do better work in school and upon many occasions have shown more aptness in learning.

The story is related when one rural family was recently visited by an assistant county superintendent. He was ordered from the premises, and in no mild terms. The father had

been compelling his children to work. That the children were of school age was admitted and the plea that the children had no clothing fit to wear to school was advanced. Neighbors previously offered to clothe youngsters, also gave other assistance, all of which was rejected by the father.

Then when the school authorities entered upon the scene, and court action threatened unless children of the family were sent to school, the father of the children had a sudden change of heart.

Today the children of this family are in school and are doing well.

# Seed Corn Lack Prevented By Good Weather

Good drying weather in the early fall has done away with the danger that much of the 1922 corn crop, a crop late in maturing, would be spoiled for next year's seed. Cropsmen at the Ohio State university expressed this opinion today.

Newly cut corn, they said, contains about three gallons of water to the bushel. Before it can resist cold and rot, a disease carried from one crop to another in the seed, the ears must be dried until they contain only about

a gallon and a quarter of water to the bushel.

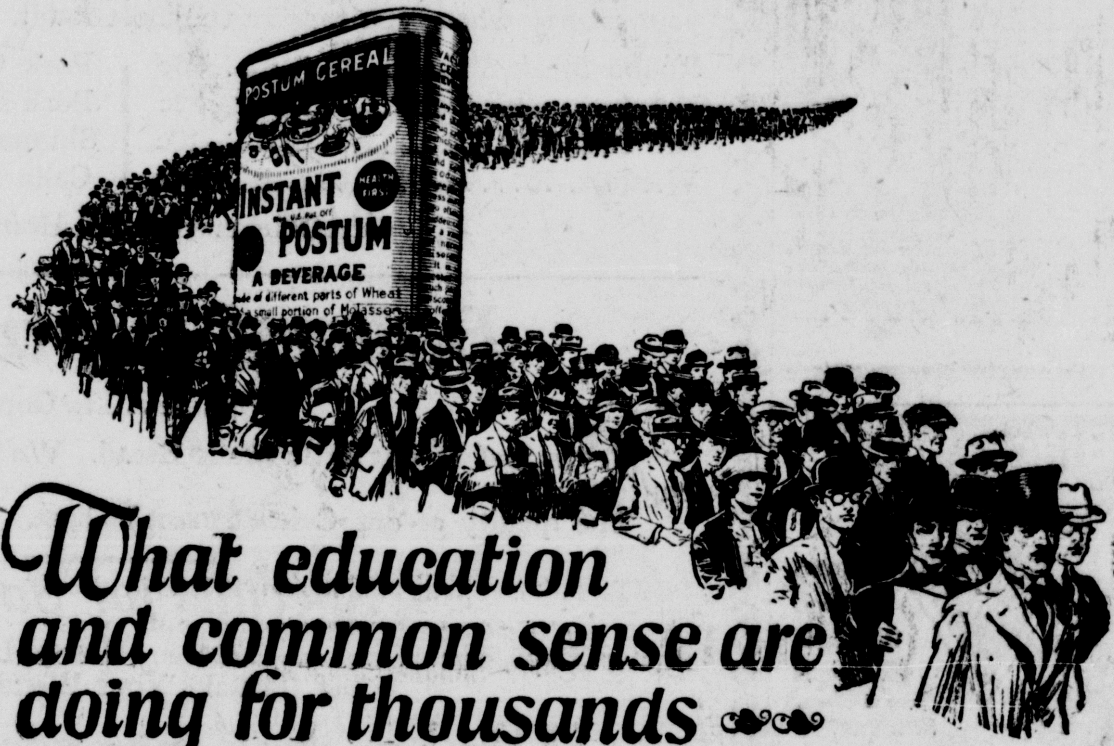

The danger, on which the crop scientists issued warning early in September, was that freezing weather would come to kill the germ of the corn kernels, and muggy weather to induce root and ear rot, before the late maturing ears could be dried and stored.

Many farmers heeded the warning, picked seed ears early, and used artificial heat to hasten drying. As for the others, the weather has gone their way this fall, and if they will pick and store seed even now it is likely to get them a good stand next spring the crops workers believe.

# Population on Farms.

The total farm population, which in the last census for the first time was enumerated separately from the rural population as a whole and therefore has no comparative figure in the preceding census, amounts to 61 per cent of the rural population, which includes residents of incorporated cities and villages having fewer than 2,500 inhabitants, unincorporated hamlets, mining regions, and other areas not devoted to agriculture. Thus, while the rural population constitutes nearly one-half of the country's total, only about three-tenths of its inhabitants are living on farms.

# What education and common sense are doing for thousands

THOUSANDS of people are learning that they cannot drink coffee or tea at supper time and get a good night's sleep.

Experience has taught these men and women to recognize that the caffeine in both coffee and tea is often responsible for a wakeful, restless night, and a nervous "next day."

If you have reason to believe that coffee or tea is causing your headaches, insomnia or nervousness, why not drink rich, refreshing Postum instead.

Postum is the delicious golden-brown cereal beverage that many former coffee-drinkers prefer for its satisfying flavor alone.

Ask your grocer today for Postum and begin serving this delicious beverage at meal times—and see how well you like it.

Postum comes in two forms:—Instant Postum (in tins) prepared instantly in the cup by the addition of boiling water. Postum Cereal (in packages, for those who prefer to make the drink while the meal is being prepared) made by boiling fully twenty minutes.

# RETURN OF TURKS AROUSES THE U. S.

PEOPLE GENERALLY DISCUSSING  
PART WE SHOULD PLAY IN  
EUROPEAN AFFAIRS.

## ADMINISTRATION IS AROUSED

Policy With Respect to the Near East  
Situation Will Be Wholly Pacific—  
Advice of Bankers' Association Re-  
ceives Careful Consideration.

By JAMES P. HORNADAY  
Washington.—The probable return of the Turk to Europe for an indefinite stay has served to awaken dormant interest in the United States in foreign affairs, and especially in the European situation. From one end of the country to the other the people very generally, it seems, have returned to a discussion of the part the United States should be taking in the affairs of the world. The federal administration has taken up the subject anew with more zeal than it has displayed in connection with the consideration of foreign affairs since the arms conference adjourned.

Organizations of various kinds throughout the land, and particularly church organizations, are giving expression to views and are communicating these expressions to the President and the secretary of state. In a noteworthy set of resolutions the American Bankers' association says: "We believe that the time has come for the government of our country to formulate the principles on which it will be able to co-operate with other nations to bring about the needed rehabilitation of European countries and peace in the world."

The judgment of 12,000 American bankers would naturally receive careful consideration at the hands of any federal administration. Several million church adherents cannot be ignored. The men who make up the roster of the leading professions command attention. And so it is not strange that the Harding administration is giving the situation intensive study and is showing a distinct inclination to "do something."

### Our Near East Policy.

A large and influential group of citizens believe the United States should assist in keeping the Turk out of Europe and use force for this purpose, if necessary. But the government is not going to follow that course. Its policy with respect to what may be called the Near Eastern situation has been clearly defined. The government will continue to exert moral influence in favor of a peaceable settlement; it will go to any lengths to extend relief to the needy. Further it will not go unless it should decide to participate in a conference on the future status of the Turk. There may be significance in the fact that up to this time Charles Evans Hughes, secretary of state, has not indicated, in any public way at least, whether the government will participate in an international conference in regard to the Turk should receive an invitation to be present. The state department is contenting itself with the statement that no invitation to attend such a conference has yet been received.

The return of the Turk has obviously convinced a good many former isolationists in America that the government should do what the 12,000 bankers say it should do—co-operate in the rehabilitation of Europe and the establishment of peace in the world. A change of thought has taken place in administration quarters and it will be a surprise if this change of thought does not produce action of some kind in the near future.

### Advice of the Bankers.

The bankers in their New York convention advised that two steps be taken immediately:

1. Make the representative of the United States on the reparations commission an official of that body.
2. Broaden the scope of the powers of the American debt commission.

Neither of these steps can be taken without the sanction of congress. It is very well understood that the executive department of the government is in favor of both proposals. As early as last May President Harding tried to persuade congress to take the initiative in the enactment of legislation which would authorize the United States to have a member on the reparations commission, but the leaders in the legislative body declined to take up the subject. It may be that when the congress gets back the President will ask it to do these two things.

Looking at the European situation as a whole, the administration, according to members of the cabinet who are deeply interested in the subject, believes that the trouble over there is political rather than financial or economic. It is this view, it seems, that is leading the administration to give serious thought to the advisability of the United States attempting to promote another international conference on the limitation of armaments and on other international subjects. The current budgets of the western European countries have been received by the authorities here and are now being carefully studied. They show that every country in Europe is budgeting money for war purposes far beyond its ability to do so. As long as this sort of thing goes on, say advisers of President Harding, it is foolish to talk of Europe's being put on her feet financially and economically.

## TRIBUTE TO AMERICAN GIRLS

Kipling at His Best Wrote With Complete Comprehension of Their Many Charms.

Thirty years ago, Rudyard Kipling found the American girl above compare. In "American Notes" he said of her:

"Sweet and comely are the maidens of Devonshire; delicate and of gracious seeming those who live in the pleasant places of London; fascinating for all their demureness the damsels of France clinging closely to their mothers, and with large eyes wondering at the wicked world; excellent in her own place and to those who understand her is the Anglo-Indian 'spin' in her second season; but the girls of America are above and beyond them all. They are clever; they can talk. Yea, it is said that they think. They are instructed in the folly and vanity of the male mind, for they have associated with 'the boys' from boyhood, and can discerningly minister to both vices, or pleasantly snub the possessor. As certain of their own poets have said:

Man is fire and woman is tow,  
And the devil he comes and begins to blow.

"In America the tow is soaked in a solution that makes it fireproof, in absolute liberty and large knowledge; consequently accidents do not exceed the regular percentage arranged by the devil for each class and climate under the skies."

Ask your druggist for genuine "California Fig Syrup" which has directions for babies and children of all ages printed on bottle. Mother! You must say "California" or you may get an imitation fig syrup.

### A Glimpse of Mars.

The planet Mars, which drew a little nearer to the earth on June 18, seen through the telescope is to the novice a somewhat disappointing object. A wise astronomer never allows a visitor to look at Mars at all, if he can help it. For the casual visitor never realizes that the published drawings of the planet represent the very most that can be seen at the most exceptional moment. In fact, the trained observer cannot see 5 per cent of the whole for 99 per cent of the time. But the novice invariably expects to see the spider webs of canals and he is invariably disappointed.

### Topography of the Air.

Explorations of the air have revealed an astonishing definiteness of arrangement in its layers, although, of course, the details are continually changing. Ley, in England, has directed his studies of floating balloons to a solution of the question of the influence of the topography of the earth's surface on the state of the air above it. He finds, among other things, that the disturbances produced by hills and valleys are transmitted to an unexpectedly great elevation, affecting the lower and middle strata throughout. A general effect noticed is that the velocity of the wind, or of a current of air, is increased over a hill and diminished over a valley. It is thought that similar observations, generally distributed, would furnish us with a real topography of the air.—Washington Star.

### Mont St. Michel Abbey Restored.

Tourists who visit Mont Saint-Michel, off the coast of Normandy, will find the Benedictine abbey which crowns its summit restored for worship. As early as the Eighth century Mont Saint-Michel, possessed religious associations, but the present buildings only date from the Thirteenth to the Sixteenth century. The height of the church exceeds the height of the rock upon which it stands 165 feet, and the granite of which it is built was brought by boat from the Isles of Chausey and hoisted up the steep side of the hill. Since 1874 the Mont has been under the care of architects appointed by the Ministry des Beaux-Arts, and by their research and restoration the abbey fortress now appears in almost its former grandeur.

## MAKE WAR ON "BABY TALK"

Cincinnati School Authorities Have Issued Special Appeal to Women's Clubs of the City.

An appeal has been made by the school authorities of Cincinnati to the mothers of that city to enlist in a war against "baby talk," and its effects on their children, and a special speaker has been appointed to carry this cause to the mothers' clubs.

While much of the talk with which fond mothers beguile their babies may sound very foolish to others, it seems to sound good to the baby, and while the claim that it makes stutters and causes other defects of speech may have some truth in it, the "baby talk" will bear comparison with much other talk heard by children.

While good speech is important, the matter is of more importance than the manner—in fact, good matter naturally tends to good matter in speech. It is at least quite as important that parents, fathers as well as mothers, are careful to select the right subject matter for talk before and to their children as that baby talk be eliminated. Try, as they may, the teachers are likely to have a hard time anyway to convince many mothers that baby talk is not the proper language in which to address the baby, both as to subject matter and method of speech.—Pittsburgh Dispatch.

### Frozen Eggs All Right.

Frozen eggs are good eggs. So concludes S. K. Robinson of Chicago after finding that microscopic examination, freezing test, incubation, shaking test, and effect of air and light tests were met as well by the solidified as by the fresh egg. He declares that fine mayonnaise dressing which held well in a warm room for 30 days had been made from the refrigerated product.

## Two Horses Fall From Trestle At Elkton, One Dies

Two horses belonging to H. H. McCartney, just north of Elkton, near Signal, unwisely undertook to walk across the big P. L. & W. railroad bridge, just beyond Elkton, Wednesday morning. The horses had broken from a pasture field nearby, and had walked out a distance of 50 feet upon the bridge, when the one in the lead fell, a distance of 35 feet to the ground below.

When the owner found them the one which had fallen 35 feet was dead, and the other, which had fallen about 18 feet was living, and may recover from its injuries. The horses were about seven years old, the one which was killed being one of a match team.
